

# Check Your Home for Radon Gas!

The Chatham Health District can provide a **free radon test kit** to check your house for dangerous levels of Radon gas.

We'll even set it up for you!

Call **(860) 365-0884** to request your free kit and arrange to have it set up for you. Once set, leave it alone for 3 days and either mail it in or arrange for us to pick it up.

**This is a limited offer as we only have about 20 kits available!**
